Dear Client,

We would like to take this opportunity to introduce your new Insurance and Reinsurance partner in Europe. We are H.W. Kaufman Europe B.V. (HWKEU).

More than 50 years ago, H.W. Kaufman Group was founded in the USA on the principles of partnership, integrity and excellence. With thousands of dedicated professionals across an extensive network of over 60 offices around the world, we lead by offering innovative solutions that are at the forefront of the industry. We are privately-owned and thus free from the influence of stock markets and private equity. This allows us the ability to adapt to constantly fluctuating market conditions.

Kaufman set foot on European ground, 9 years ago, after acquiring Chesterfield Group in London, England. To better serve clients on the continent, we have moved forward and planted a flag in Amsterdam, the Netherlands. From January 1 2021, HWKEU is a business partner for insurance professionals across Europe. We serve the Group's existing European clients and we are looking forward to bringing capacity and specialist expertise to new ones.

We bring together a wide range of insurance solutions through the expertise of our sister companies in England and direct access to Lloyd's Insurance Company/Lloyd's of London.

A few examples of lines of business we offer: **Cyber, Security, Contingency, High Risk Accident & Health, Yachts and Superyachts, Kidnap & Ransom and Liability**. We can also help set up binding authorities. More information about this can be found at www.hwkaufman.eu.

One of Chesterfield's co-founders James Stevenson is our Managing Director. Further, our team consists of Niels Vermolen as Director, Rupesh Appannah as Senior Business Executive and Hanna Streng as Technician. Please do not hesitate to contact us at info@hwkaufman.eu.

We hope to meet you soon!

Yours Sincerely,

Rupesh Appannah
Senior Business Executive
H.W. Kaufman Group Europe B.V.
